Stony walls rise up sharply on both sides of the canyon, while birds roost in its crags and lizards dart along the ledges. After lunch we will make our way up an incredible climb up the Spreetshoogte Pass climbing 1,000m in just 4km. What a view from the top! Then it is onto our final campsite at Namibgreus. In campsites with organized facilities these may be quite basic e.g. "long drop" toilet and bush showers which have hot water after the fire gets the water warm. When we bush camp we have a couple of toilet tents that can be set up. Each vehicle gets a "magic toilet" a small pop up loo that can be used in the tent if needed.

Vehicles...

The standard vehicles are fully camping equipped. The base model used in pricing is a manual Toyota Hilux with roof top tent or ground tent. Various upgrades are available.

DAY

5 Seater

NIGHT

Sleeps 2 persons in 1 rooftop tents

Driving Ability & Conditions...

The skills required are a driver's license and some 4x4 experience or rough gravel track driving recommended. The route is planned largely avoiding main roads with extensive travel off road and on rarely used tracks, trails and in river beds.

Activity Level...

This trip is not physically demanding as any walking activity is usually optional. There are walks available from 1-2km to longer and a trekking pole is recommended if you have some difficulty on rough terrain or stairs.

www.selfdriveadventures.com

Convoy Size...

The minimum number of 4x4s in our convoy is 5, unless a small group surcharge is added, and the maximum is 7. This excludes support vehicles. Most vehicles tend to have just two guests, however, up to four can be accommodated. The convoy does travel together for most of the journey, so you need to be willing to be flexible to fit in with the determined start time each day, stops for breaks etc. We try to allow breaks for photos, toilet stops, sightseeing, activities, wildlife viewing, lunch, morning and afternoon tea. In some places part of the day may be "free" where we will give a certain meeting point to regroup.

Food & Drinks...

Excellent variety! Plan your own meals and do your own shopping to stock your vehicle. You will have all your own cooking equipment, fridge etc in your vehicle so you can be self-sufficient.

Weather...

The weather will typically range from cool to cold at night, 7-10 degrees C and from 20-35 degrees C during the day depending on the location.

Guide & Support Team...

You will have a Self Drive Adventures escort for the entire journey. In Botswana you will be joined by a local expert wildlife guide with their safari vehicle so you can focus on enjoying the wildlife experience. The decision of Self Drive Adventures is final on all matters likely to affect the safety or well-being of any person participating in the trip.

Amenities & Toilet Breaks...

Most of the campsites have flushing toilets and showers. There are only 5 nights where there are no amenities. The longest we are without access to amenities is 2 nights. There will be times when a toilet is not available during the day and we will stop for a "bush toilet" where there may be cover of trees or bushes for privacy.

Wildlife...

The wildlife ("game") will be in pockets along the route. The main game viewing areas are Moremi National Park, Khwai Conservancy, Chobe National Park and Etosha National Park.

Before booking flights and other arrangements it is your responsibility to confirm with us that we have the minimum number of cars required for this adventure to depart.

Best holiday of my life!

Although I love travelling overseas, Africa was not really on my bucket list as I prefer to travel independently and not on a 'tour'. As a member of the Landrover Club of the A.C.T., I have done a lot of four wheel driving and camping across Australia but never imagined that I could have the same experience in Africa. I was hooked when Linda and Mike did a presentation at our club meeting and I found out that (a) I could drive my own four wheel drive in a small convoy just as we do in Australia and (b) I could camp in the bush and experience the African scenery. My interest in the African wildlife was only a secondary consideration then. I was blown away by the magic of the whole trip (31 day Botswana and Namibia) and had probably the best holiday I have ever had in my life. The company was wonderful, the driving exciting and varied, the desert scenery breathtaking, the visits to bush villages and schools educational and eye-opening and the camping and varied camp sites wonderful. The Hilux utes and the camping gear provided were very functional and comfortable. However, the wildlife experience was just amazing. I never imagined that I would be so up front and personal with hundreds of elephants, lions, hippos, giraffes, zebras, warthogs, hyenas, wildebeest, rhinos, cape buffalo, impala, kudu, lechway, oryx, springbok and hartebeest, to name a few of the animals we encountered. Mike, Linda and Dave were wonderful hosts and support, and we also had the company of local guide Chris in his safari truck to lead us to the waterholes and rivers of Moremi Game Reserve, Khawai and Chobe National Park. The overnight stay at Victoria Falls was a once in a lifetime experience as was quad biking on the dunes at Swakopmund, cruising on the Chobe river at Ngopi, flying over the Okavango delta and driving through Etosha Wildlife Reserve. I have recommended a Self Drive Adventure to other club members and friends, many of whom have 'signed up'. I am off to Iceland with Mike and Linda in July and will be back to Africa first chance I get!
